### Surrender of Original Patent

The Office Action states that this application is in condition for allowance except for formal matters. The outstanding formal matter is that the original patent had not been surrendered. The Applicants submit that all formal matters have now been satisfied.

### Interview Summary

An interview was held with the examiner on August 19, 2003 as indicated in the Examiner's Interview Summary attached to the Office Action section. Pursuant to MPEP Section 713.04, the Applicant makes the following comments.

- a) No exhibits were shown or demonstrations conducted.
- b) Claims 15-22 were discussed.
- c) No prior art was discovered.
- d) Amendment to claim 15 was discussed to include reference to a flexible support means similar to that provided in claim 21. The agent for the Applicants indicated that he would make a proposed amendment in writing suggesting how elements of claim 21 could be integrated with claim 15 (b) (i). The agent for the Applicants also indicated that the reference to "terminal end portions" may be improperly limiting. Although not specifically discussed during the actual interview, the amendment proposed by the Applicants deletes the reference to the terminal end portions of the fibers and to the fibers being spaced apart from each other by one or more potting materials.
- e) Regarding claims 15-20, the recapture rejections were discussed as previously raised in the record. Claim 21 was indicated to be allowable if written in independent form. The Examiner stated that Claim 22 would not be allowable for adding new matter. In reply, the agent for the Applicants argued that potting resins which are flexible and which support the fibers are described in the specification. Agreement was reached as described in part d) above, to make amendments such that claims 15-18 would overcome the rejections, although the agent for the applicants does not admit that the claims prior to amendment are not allowable.
- f) No other pertinent matters were discussed.
- g) The general results or outcome of the interview are already described in the Interview Summary form completed by the Examiner.
